- Data Visualization
- Geospatial Technologies
- Learning New Technologies

PROFESSIONAL SUMMARY

As a web developer with a solid foundation in both front-end and back-end development, I bring practical experience in creating dynamic, responsive websites and web applications. In addition to my technical skills in HTML, CSS, Bootstrap, Tailwind CSS, JavaScript, jQuery, PHP, and MySQL, I possess strong problem-solving abilities and a passion for continuous learning and innovation.

WORK EXPERIENCE

GEOGRAPHIC INFORMATION SYSTEMS ANALYST
freelance

2021 - Present

- Managed road networking projects and performed image classification using ArcMap, ArcGIS Pro, and Google Earth Engine.
