PROFESSIONAL SUMMARY

.NET Developer with hands-on experience in C#, ASP.NET Core, MVC, and Entity Framework, along with SQL Server database work including queries and stored procedures. Comfortable developing, testing, and maintaining web applications, integrating REST APIs, and working with jQuery for front-end support. Strong foundation in object-oriented programming, quick to learn new technologies, and eager to grow within a collaborative, professional development team.

SKILLS

- .NET Development: C#, .NET Core, ASP.NET Core, ASP.NET Core MVC, Entity Framework, REST APIs, Object-Oriented Programming
- Frontend: HTML, CSS, JavaScript, jQuery (basic), Bootstrap, Tailwind CSS, Responsive Design
- Databases: SQL Server (Queries & Stored Procedures), PostgreSQL, MySQL, Relational Database Design
- Other Backend: PHP
- Tools & Platforms: Visual Studio, Git, GitHub, VS Code
- Soft Skills: Problem-Solving, Team Collaboration, Communication, Adaptability

PROJECTS

- .NET Lab Management System (ASP.NET Core, SQL Server): Built a full-stack web application to manage lab records and workflows.
- Portfolio Website (HTML, Tailwind CSS, JavaScript, .NET): Developed a responsive personal portfolio with API integration and a .NET backend.
- Weather App (JavaScript, API): Built an application consuming a third-party REST API to display live weather data.
- Car Rental System (PHP, MySQL): Developed a booking system with database integration and CRUD operations.
- Responsive Login Form & Animated Profile Card (HTML, CSS): Built mobile-friendly, interactive UI components.

WORK EXPERIENCE

Geographic Information Systems Analyst

Engineering Consultant International (Pvt) Limited | 2024 - Present

- Developed, tested, and maintained GIS applications and internal tools using C# and Python.
- Wrote and optimized queries and stored procedures against PostgreSQL databases for efficient data management.
- Troubleshoot and debugged application issues while automating recurring workflows using Python and C# scripts.
- Collaborated with cross-functional team members to deliver geospatial data solutions using ArcGIS and QGIS.

EDUCATION

.NET Development — Aptech Metro Star Gate (May 2025 - Jan 2026)

Web Development (NAV TTC) — Aptech Metro Star Gate (2024)

Master of Science, Geography — University of Karachi (2022)

INTERESTS

Web Development, Data Visualization, Geospatial Technologies, Learning New Technologies, Problem Solving, Open Source Learning, Technology Research
